## Uniquely meaningful

The Cedar Community Memorial Garden is a small but serene space on the Cedar Lake campus dedicated to honoring the lives of our Community members. In addition to a fieldstone wall, benches, pathways, gardens and plantings, there are places for cremains, as well as simple memorials without inurnment.

As a faith-based organization established in 1953, Cedar Community's mission is to "create relationships, services and environments that enhance the lives of individuals we serve." The Memorial Garden is an expanded level of that service, founded by residents in 2010 to express their deep need for a uniquely meaningful and comforting final resting place for loved ones.

The Cedar Community Memorial Garden is safe, accessible and well-maintained; a visually pleasing atmosphere conducive to meditation and reflection. It has been adequately funded and is operated under the guidance of the Cedar Community Memorial Garden Council to ensure on-going maintenance and future development.

## Who is eligible

The Memorial Garden is for persons in relationship with Cedar Community, including residents, employees, volunteers, current and past members of the Board, Foundation, and administration, as well as benefactors and stakeholders.

## What memorial options are available?

Options for markers with the burial of cremains include:

- Engraved markers on low circular walls, with cremains buried behind.
- Ground-level markers indicating cremains in a bower of beautiful birch trees.
- A listing on a large engraved rock located in a small wildflower berm where cremains are buried.

Options for memorial markers without burial of cremains include:

- The "Circle of Life" features marked bricks encircling the central Cross.
- Engraved markers on a low circular wall (without corresponding cremains).
- An engraved rock dedicating a tree or other planting
- An engraved plate dedicating a bench
